THAT SLIDING BOARD

Some Things Respecting Play Some years ago there was a popular song that contained these lines, "You shan't play in my yard. You shan't slide down our cellar door." Now the cellar door that had such marked attractions (and some slivers in addition) for the children of that generation has been supplanted by the smooth and springy sliding

board which gives such unbounded joy to the children of today.

Berea is to have a brand new school building and it is going to be a fine one. Moreover it is going to have a good frontage on the Main street, owing to the pride of the citizens. Around this school building there is a fine yard, well shaded with beautiful oaks. Should there not be under these beautiful oaks a complete equipment of substantial play apparatus for our children? Are the children any where any better? Are they any more worthy of the best?

Wouldn't you like to see as you go by, several substantial swings, some solidly made teeter-boards, three or four good sliding boards, and two or three big sand boxes for the little children, with an equipment of substantial and simple apparatus for the elder children?

Would not the ladies of the different Churches and Ladies Clubs render a notable service to the community and to the children, if they were to take hold of the matter of providing this equipment? Surely some of our men would be glad to give lumber and others to give skilled labor and still others to give money to provide for this desirable need and thus complete the already fine equipment of Berea's public school.

The fine staff of teachers secured gives us assurance that this year is going to be a notable one in the history of public education in Berea, thanks to the public spirit of the citizens.
